Graw on the eve of a championship series. I don't pretend to know much about the White Sox, and to my mind the business of individual comparison is worthless, especially when two teams in McGraw's ability to bring out all are so evenly matched as the Glanta and Sox.

JIM BARNES WINS OPEN GOLF TITLE IN PHILLY

PHILADELPHIA, Sept. 28 .- Playing a game that was worthy of his reputation. James M. Barnes of the White-march Valley Country Club won the open golf championship of Philadelphia at the Merion Cricket Club course with a score of 206 strokes for the seveniytwo holes. Harnes won by the comfort able margin of five strokes from Charles 14. Hoffner of the Philmont Country Club, who in turn was two strokes ahead of Wilfred Reid of Wilmington. Others who got in the money were Tom McNamara of Taplow with 317, Fredde McLead of Columbia with 315 and Fal Deyle of South Noure with 320, McLead also wen the special prize of \$10 for he lest round during the tournament with a 73 on the afternoon of the first day.

This Giants are in Cincinnati with us this week-end, but not in their World's Series form. I don't imagine American League scouts will make any important discoveries here, as practically none of McGraw's regulars are in the line-up and his best pitchers are doing only enough work to the point of a line on the Giants through their farewell performances here, I have a ling, with the Giants having a shade.

But I contend that the Giants have more good pitchers than the Sox. One pitcher cannot win a World's Series without assistance.

Behind the bat Chicago may be stronger, but here again the Giants have gain the Giants have strength in numbers. If anything should happen to Schalk the Sox would worry. But McGraw has three experienced catchers, I should say that in this department the Giants are well equipped and the Sox would have netted \$2,138. An investment of a line on the Giants through their farewell performances here, I have a ling, with the Giants having a shade.

But treams are about equal in field-line.

Both teams are about equal in field-line.

Both teams are about equal in field-line.

BOSTON, Sept. 28.—President H. H. Frazee of the Boston American League ngure as better base runners, but the Schalk's eleverness may offset that advantage.

If the pitchers all stand up the Chicago system of playing for one run may prove better than New York's habit of getting runs in bunches by adopting straight hitting tactics.

Hoth teams are well appeared to the Boston American League Club to play a city series at the close of the regular season. The owner of the Red Sox said there appeared to be no genuine demand for these rames by the local followers of baseball.

Sartorially, the dope finally cozes toward the Giants, owing to Benny Kauff's demon ability to grab off high-powered cravats and upholstered vests which would make a chameleon chirp for an eight-hour day.

Physically, the teams are neck and neck, with the Giants establishing a slight edge, as Pol Perritt owns more neck than a fleet of giraffes.
